

SWANA Ontario Fall 2018 YP Workshop
Thursday October 4th, 2018
880 Stevenson Rd. S. Oshawa, ON
9am – 3pm

Attention Young Professionals! It's time to register for the fall 2018 YP Workshop! Join us this fall as we shift gears from public sector facility tours to this rare opportunity to tour one of Canada's largest private sector manufacturing facilities, General Motors Canada Oshawa Assembly Plant. General Motors will be providing us with an exclusive private tour of the 5.1 million sq. ft. facility which has been designated landfill free. After the tour, speakers will illustrate the initiatives taken to reduce waste and outline the working relationship with Durham Region.

In the afternoon we are proud to announce the second YP World Café. Back due to overwhelming demand, we will have a showcase of experienced professionals onsite to network with and answer questions about career paths, past and future initiatives, etc. This is a fantastic chance to make connections with some of Ontario's most prominent waste industry personnel. Start writing down your questions now!

Make sure to [register](#) for this event soon. We have been overwhelmed with pre-registration emails and space is limited to 60 seats!
