

FALLING FOR WASTE

CALL FOR PRESENTATIONS

We are excited to bring you informative sessions focused on waste reduction, re-use, recycling, processing and disposal that are current, interesting and applicable in the waste industry. Possible topics for papers include:

- Extended Producer Responsibility Transition
- Municipal Long Term Strategic Plan Development
- ECCC GHG Reductions – LGCCS Impacts
- Landfill Design & Operations (i.e., leachate biofouling, technologies)
- Public Education and Behaviour Change
- Organics Management (New Programs, New Facilities)
- Health and Safety (Slow Down Move Over, Fires in MRFs, Driver Training)
- Circular Economy
- Climate Change Impacts (Disaster Debris Management, GHGs)

HOW TO SUBMIT A PRESENTATION ABSTRACT

1. Write a presentation abstract with a maximum length of 250 words
2. Identify the title of the presentation and the names of the author(s) and presenter(s) with a brief presenter bio and full contact information
3. Submit completed abstracts to office@swanaontario.org by **October 28, 2023**
4. Authors of accepted presentations will be notified if accepted in late Fall 2023

A discounted conference registration fee will be available for presenters of accepted papers.
Authors/organizations may submit more than one abstract.
